

VAISHALI SHARMA

Frontend Developer | React.js | JavaScript

Kanpur, UP, India | +91 7905987701 | vaiishali.sharma.01@gmail.com

LinkedIn: linkedin.com/in/vaishali-sharma-3611b332a | Portfolio: ibuilt-thisapp.vercel.app

PROFESSIONAL SUMMARY

Fresher Frontend Developer skilled in building responsive, mobile-first web apps with React.js, JavaScript, and Tailwind CSS. Comfortable turning designs into clean UI components, connecting APIs, and shipping production builds. Brings internship experience in AI evaluation plus full-stack project work - ready to contribute to a product team and grow as a Frontend Engineer.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Figma

Backend & APIs: Flask, Django, REST APIs, Node.js (Basics), SQLite

Languages: Python, C, Java

Tools: Git, GitHub, VS Code, Vercel, PyTorch

EDUCATION

B.Tech, Computer Science & Engineering

09/2022 - Present

Kanpur Institute of Technology, Kanpur, UP

Class XII (Computer Science)

04/2021 - 04/2022

Kendriya Vidyalaya No.1, Kanpur, UP

INTERNSHIP EXPERIENCE

LLM Post-Training Intern | Ethara.AI | Remote

01/2026 - 05/2026

- Improved model response quality by applying SFT and RLHF techniques focused on accuracy, safety, and human preference alignment.
- Prepared and filtered training datasets so alignment pipelines used cleaner, more reliable examples.
- Tested model outputs for hallucinations and weak prompts, then iterated with the research team to tighten prompt logic.

PROJECTS

Crop-Sense - AI Farming Assistant (Full-Stack)

- Designed a practical AI tool that helps farmers pick crops from soil data, track fertilizer gaps, spot leaf disease, and ask farming questions in a chatbot.
- Shipped a Flask backend with a Random Forest crop model and ResNet9 CNN for leaf analysis; connected DeepSeek R1 for chat and kept local inference under 2 seconds with in-memory model caching.

iBuilt-This - React Portfolio Web App

ibuilt-thisapp.vercel.app

- Built a fast, reusable React + Tailwind UI with smooth client-side routing and layouts that stay consistent on mobile and desktop.
- Deployed to Vercel with production asset optimization so first load stays quick across devices.

CERTIFICATIONS

Cybersecurity - Advanced IT Skills (Grade A) | ICT Academy & Redington (Cisco)

11/2025 - 12/2025

Django Web Development | RCPL

06/2025 - 07/2025

Python Programming Internship | Oasis Infobyte

08/2025
